Just got off the phone with her. So both RVO and DME are currently closed to new patients. She claims it is temporary and that they should open in about 3 weeks. The AMD fund ended the year with 18MM in available funds so she is going to redo the numbers for me. She is planning to decrease the grant again this year to 1800/2250 as ending the year with 18MM in excess shows that their grant amount is still too high. I should have her Q1 request by EOD.

Regards,
Bil

Have you got anywhere with Clorinda at CDF? I would like to bring this up on the call at the end as well and tell them what you are trying to obtain from her.
Rob
